Papé Parts Online

THE PAPÉ PORTAL'S BUILT-IN INSIGHT ENGINE ENABLES YOU TO QUICKLY AND EASILY MAKE DECISIONS TO MANAGE YOUR PARTS.

Papé offers the largest heavy equipment parts inventory in the West. You're sure to find what you need among our selection of 30+ million OEM and aftermarket parts.

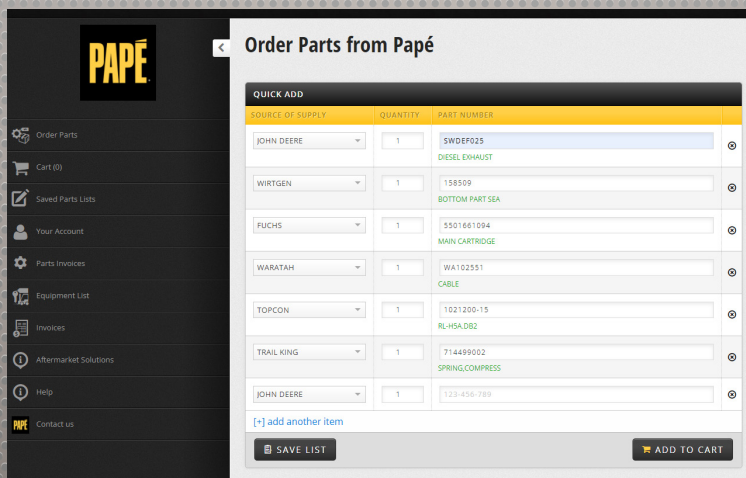

- ▶ Look up parts via John Deere Parts Advisor
- ▶ Order parts whenever and wherever with 24/7 access
- ▶ Send special instructions with the order
- ▶ Update your account information
- ▶ Review real-time parts pricing
- ▶ Browse on-hand inventory
- ▶ Select delivery methods
- ▶ Access parts invoices
- ▶ Saved parts lists
- ▶ Equipment lists
- ▶ Invoice lookup

Maintenance Solutions

If you are looking for a reliable filter for equipment that isn't John Deere, there's no need to go anywhere else. Papé stocks highly efficient Fleetguard filters to take care of your non-Deere fleet.

Benefits

- ▶ Synthetic, multi-layered Statapore® medium technology provides higher capacity, greater efficiency and less restriction than traditional media
- ▶ Wide range of replacement filters that meet or exceed OEM specifications for almost any diesel engine
- ▶ Hydraulic, transmission, fuel, air and fuel/water separator filters are available
- ▶ Best in the industry warranty – no proration and fully protected no matter the all-makes application

Fleetguard®

John Deere Filters

Oil Filters

Dirt in oil will slow you down, leading to decreased productivity and shorter service intervals. That's why John Deere oil filters are tested to make sure they capture more dirt than lesser-quality filters.

- Even pleats and filtration media spacing ensures even filtration for a better overall protection without gaps
- Spiral and crimped center tube adds strength to prevent filtration media from collapsing and letting particles into your system
- Rubber gaskets encourage a tighter seal than plastic gaskets found in competitive filters

Air Filters

John Deere air filters are another high-quality line of defense against contaminants invading your engine. They reduce engine wear by removing dust, dirt and other pollutants from intake air.

- Even pleats and more media ensure high efficiency and a longer service interval
- Proper airflow ensures a minimum flow restriction while capturing more contaminants than leading competitive air filters
- A tight seal keeps contaminants from bypassing the filter

Fuel Filters

John Deere fuel filters have coated media that keep water out, preventing rust and microbial growth that could damage your fuel and lead to poor fuel economy.

- Advanced, coated media – repels water & contaminants
- High-grade seals & components that provide durability and corrosion protection
- Proprietary flow-technology for optimum particle and water removal

Wirtgen, Vogele, Kleemann Hydraulic Uptime Kit

AS YOUR JOBSITE PARTNER, PAPÉ MACHINERY WILL PROVIDE:

Accessibility:

Hose and fittings for Wirtgen products when you need them no matter the time or place.

Control:

You decide the frequency of refill and product depth for every on-site box.

Efficiency:

Provides the necessary hose and fittings when needed to get your paving crew back to work.

Convenience:

Available wherever you go, no matter what hours you are working.

OUR KITS ARE CUSTOMIZABLE TO YOUR OPERATION'S NEEDS!

We provide hose and fitting types for all makes and models.

Hydraulic Hoses

Increase Uptime

Crimping your hoses gets you back up and running quickly

John Deere Fab Guide

Exclusive access to recipes delivers the fastest options for you

Equipment Program

Options to meet your production needs, large or small

Efficiency Through Partnership

Local support for production selection, applications and equipment

Use Ultra Clean hose cleaning and sealing on all your hose assemblies

- ▶ Quick and easy
- ▶ Cost-effective
- ▶ Inhibits downtime
- ▶ Reduces contaminates

**GlobalCore with Tough Cover
available for all makes and models**

Fuel Conditioners

FUEL-PROTECT DIESEL FUEL CONDITIONERS

Fuel Conditioner

Boosts fuel's cetane number for faster and more fuel-efficient starting

- ▶ Detergents clean injectors and help prevent performance erosion while cleaning the entire fuel system
- ▶ Winter formula has a de-icer additive to prevent ice formation in fuel lines
- ▶ Lubricants protect and reduce the injector and pump wear
- ▶ Minimizes smoking
- ▶ Increases a fuel's thermal and storage stability
- ▶ Maintains fuel pump warranty

Winter Formula has cold flow improvers to increase engine operability 10°C (18°F) below the fuel cloud point.

Keep Clean

Diesel injectors are specially formulated to restore and maintain performance in engines with modern high-pressure and legacy diesel fuel systems, including injector sticking, misfiring, rough idling, excessive exhaust smoking, power/fueling loss and hard starting.

FUELSAVER™ (Antimicrobial Agent)

When water gets into your fuel tank, bacteria and fungus can invade and rob engine performance. Microbes live and grow in your fuel, corroding fuel system components and plugging fuel lines, filters and pumps. FUELSAVER™ is an effective antimicrobial agent and an EPA-approved biocide and fuel additive for today's biodiesel and ultra-low-sulfur fuels.

Cool-Gard™ II Coolant

Get six years of cooling-system protection

John Deere Cool-Gard II™ is a heavy-duty engine coolant featuring an exclusive Hybrid Organic Additive Technology (HOAT). This unique formulation protects cooling systems for six years or 6,000 hours of use, typically without the need for additions of supplemental coolant additives (SCAs). Cool-Gard II™ is available in a variety of package sizes as well as in bulk to suit individual customer needs. Cool-Gard II™ concentrate is an ethylene glycol coolant ready to mix with quality water to provide proper freeze protection. John Deere refers to quality water as deionized water, reverse osmosis water, distilled water or otherwise low-mineral content water. Using impure water can reduce the performance of the cooling system and life of the coolant.

Diesel Exhaust Fluid (DEF)

John Deere DEF is compatible with all engines using selective catalytic reduction (SCR) aftertreatment technology. This includes John Deere diesel engines and equipment, off-road and stationary equipment, on-road trucks, and automobiles. With John Deere DEF, you can be confident you are getting a high-quality product that will provide unsurpassed performance while protecting your equipment investment. Simplify your operation by integrating John Deere DEF into your fluid maintenance routine.

- ▶ Convenient container sizes
- ▶ Translucent containers to monitor fluid levels
- ▶ Non-toxic, non-hazardous and non-flammable
- ▶ Dispense nozzle included with each jug
- ▶ Drums outfitted with 2-inch bung opening for direct-pump or closed system dispensing valve and drop tube installation
- ▶ Forklift access beneath tote cage for ease in handling
- ▶ ISO 22241-compliant
- ▶ American Petroleum Institute (API) certified
- ▶ Totes include integrated closed system dispensing valve and drop tube

Typical Usage Rates*

JOHN DEERE ENGINE	RATE
6.8 L	0.4 L/hr (0.1 Gal/Hr)
9.0 L	0.8 L/hr (0.2 Gal/Hr)
13.5 L	1.1 L/hr (0.3 Gal/Hr)

*DEF usage rates shown are based on an average for typical engine duty cycles. DEF consumption is primarily a function of engine speed and load. Actual results may vary.

Top-Quality Grease Solutions

TO KEEP YOUR EQUIPMENT RUNNING SMOOTHLY

Multi-Purpose

- ▶ **SD Polyurea**
Use for U-joints, wheel bearings & other grease points requiring severe-duty grease
- ▶ **HD Lithium Complex**
Use for wheel bearings, U-joints, and other grease points requiring HD grease
- ▶ **Lithium**
Ideal all-season grease for light to medium duty applications
- ▶ **Extreme-Duty Synthetic**
High-temperature, extreme pressure grease (non-toxic, non-straining, odorless, food grade)

Special-Purpose

- ▶ **HD Moly Grease**
Excavator pins, fifth wheels, ball joints, chassis, chains, cable & conveyors – Deere factory fill in most C&F machines
- ▶ **Lithium Complex 3% Moly**
For use in applications with continuous sliding contact and shock loads
- ▶ **Calcium Sulfonate 5% Moly**
Increased protection for applications with continuous sliding contact and shock loads

Wirtgen Group

WIRTGEN EQUIPMENT INSPECTIONS, FREE OCTOBER 1, 2023 - MARCH 30, 2024

- ▶ Wear Part Assessment
- ▶ Function Test
- ▶ Maintenance Review
- ▶ Parts Recommended
- ▶ Papé Machinery will provide **FREE** hats for your crew upon completion of machine inspection
- ▶ Parts discount may apply when purchased

ELIGIBLE MACHINES INCLUDE:

- ▶ *Vögele pavers and screeds*
- ▶ *Kleemann crushers and screens*
- ▶ *Hamm asphalt rollers & soil compactors*
- ▶ *Wirtgen milling machines, soil stabilizers and slipform pavers*

Meet the Wirtgen Group

WIRTGEN

The Wirtgen product line-up includes cold milling machines, recyclers and soil stabilizers, binding agent spreaders, slipform pavers, and surface miners for open-cast mining operations.

VÖGELE

World-renowned for top quality asphalt paving equipment, Vögele's line of pavers, screeds, and powerfeeders are the ultimate choice for road paving applications of any size.

HAMM

The Hamm line is focused on compaction technology with over 200 models of compactors, tandem rollers, and pneumatic tire rollers to meet the needs of any road or soil compaction project.

KLEEMANN

Kleemann mobile systems are built to recycle and process natural stone efficiently and profitably where needed, replacing stationary plants and outdated processes.

PLUS-50™ II ENGINE OIL

- ▶ Excellent protection for longer engine life for current and older engines
- ▶ Up to 500-hour oil-drain intervals when used in John Deere engines with John Deere long-life oil filters
- ▶ Unsurpassed deposit control and high-temperature stability performance
- ▶ Provides rust protection for your engine's internal parts for wet environments and off-season storage

The Power of the Connected Machine

MACHINE MONITORING

- ▶ Specialists at our dealership filter and analyze alerts and other data from your machine to identify issues that can cause downtime.

REMOTE DIAGNOSTICS AND PROGRAMMING

- ▶ Papé Machinery can read and reset diagnostic trouble codes, record performance readings, and update software without a trip to the jobsite.

Machine Monitoring Center

Papé Machinery's Alert Management Center monitors and interprets JDLink machine-health alerts, often-times before the operator is even aware that a problem exists. This data, coupled with the Remote Diagnostic capabilities integrated in your connected machine, can provide us with critical information to determine what steps can be taken to minimize or even eliminate downtime. So even if you don't have JDLink set to send you alerts, we will know when something needs attention.

JOHN DEERE PROTECT SERVICE PLAN

What is John Deere Protect?

John Deere Protect is a tailored program designed to help manage the Total Cost of Ownership of a John Deere Construction machine. It combines the following elements into a single package to reduce the risk of unexpected downtime and repair costs.

What is included?

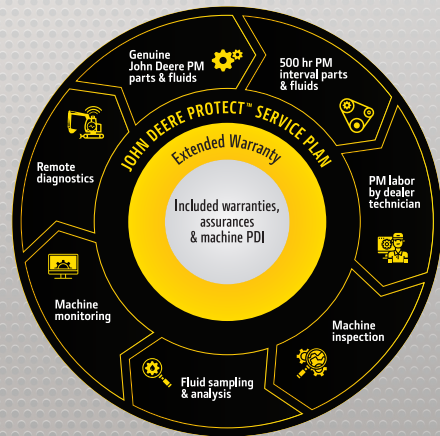

- ▶ Machine setup pre-delivery inspections
- ▶ Base warranties and included assurances
- ▶ Extended warranties

Periodic Maintenance (PM) Service Plan including:

- ▶ Scheduled PM service work and machine inspections performed at 500 hour intervals by dealer technicians
- ▶ Genuine John Deere PM parts and fluids
- ▶ Fluid sampling and analysis
- ▶ Connected Support remote machine monitoring and diagnostics
- ▶ Available options may include:
 - Travel Time/Mileage
 - Equipment Transportation
 - Severe-Duty Filters
 - Customized Services
 - Premium Fluids

Why John Deere Protect?

Expertly performed maintenance, done on time with genuine John Deere parts, ensures that the machine is being maintained by the book. Regular machine inspections, fluid sampling and machine monitoring help identify little problems so they can be corrected before they become big problems, which maximizes uptime and minimizes the risk of unplanned downtime or interruption. Your participating dealer knows you and your business, and can work with you to identify any additional tailored services that work best for you.

John Deere Protect™ Service Plans are available for eligible models of construction equipment at participating John Deere dealers in the United States. Number of Scheduled Maintenance Events and parts required varies based on specific model, in accordance with the operator's manual. Please see your participating dealer for complete details.

Topcon Laser & GPS Grade Control

NEW COMPETITIVE PRICING FOR 2024!

Advantages of Buying from Papé Precision Technology vs. Online Retailers

- ▶ Every laser is calibrated to factory specifications by a Papé Topcon-certified technician
- ▶ We stock Topcon factory parts for fast repair
- ▶ Immediate delivery on top-selling laser products

Why Choose Topcon Lasers

- ▶ **5-Year Warranty:**
Topcon backs up its reliably accurate lasers with the industry's best warranty
- ▶ **Job Site Tough:**
Lasers have an IP66 rating
- ▶ **Extra Long Battery Life:**
Up to 120 hours

As an authorized Topcon Dealer we offer a full-service parts department

- ▶ Lasers ▶ Tripods ▶ Cables ▶ Sensors

Full-Service Repair & Support Center

- ▶ In-house factory-trained Topcon technicians
- ▶ Onsite and remote support available
- ▶ Calibration for lasers

Papé Grade Control Support Call Center

- ▶ No charge phone support for Papé customers

Wirtgen Cutting Technology

Ideally tuned components for greater machine productivity. The goal of every construction measure is to achieve high-quality results.

This applies to road reconstruction in the use of cold milling and cold recyclers as well as in soil stabilization and in mining useful minerals with surface miners.

Optimal interplay between the drum, pick holder and pick is essential for precise, efficient pavement processing.

WIRTGEN is the market leader in cutting technology, and it offers customers ideally tuned, high-performance cutting systems. In addition, WIRTGEN is constantly developing its cutting technology further. It is informed, in particular, by experience in practice and feedback from our customers.

Benefits

- ▶ Maximum productivity
- ▶ Precise results
- ▶ Maximum life
- ▶ Lower operating costs
- ▶ Focus on advanced development
- ▶ Inquire with your CSA or parts professional regarding container pricing

Undercarriage Solutions

All-Makes Steel Undercarriage

We offer an innovative, efficient, reliable and economical range of solutions for your undercarriage needs. Whether it is for bulldozers, excavators, old machines or special designs, we specialize in providing you with the right solution for your specific requirements.

Rubber Tracks

Our rubber tracks are designed with a lug pattern that effectively reduces noise and vibration for a significant decrease in operator fatigue. Down force has been decreased for excellent driving performance and flotation on soft ground and inclines.

Wear Items Solutions

Ground Engaging Tools

Cutting Edges—Protect your investment!

Ensure ultimate uptime for your machine by properly managing its cutting-edge system to help improve productivity, reduce machine downtime and ultimately lead to higher returns on your investment. We have a full line of cutting-edge products that can be your solution regardless of application.

ASK ABOUT OUR FREE ADAPTOR PROGRAM

FULLY HAMMERLESS
NO HAMMERS OR PRY BARS

What we offer:

- ▶ Grader Edges
- ▶ Lip & Heel Shrouds
- ▶ Vertical Shrouds
- ▶ Jagz
- ▶ Standard Cutting Edge
- ▶ Stinger & Scarifier

TK-Series Tooth System – Why it's better.

The TK-Series System is engineered to deliver maximum performance, quick and safe replacement and superior tooth retention.

Worksite Safety:

- ▶ No hammers or pry bars—a simple socket wrench is all you need for quick and safe tooth removal.
- ▶ Put the hammer down! Installing and removing TK-Series bucket teeth is a simple, three-step process.

ReLife Warranty

We stand behind our products, which is why we provide a standard one-year warranty on all John Deere Reman components when installed by your Papé Machinery certified technician.

We understand that doing business involves risk, so we're letting you choose how to protect your investments. With the Powertrain ReLife Plus program, you can extend the warranty coverage on major powertrain components replaced under the program to three years/5,000 hours or two years/6,000 hours (three years/3,000 hours for all Scraper Tractors).

**JOHN DEERE
POWERTRAIN RELIFE PLUS
MACHINE REBUILD
PROGRAM**

Give your machine new life — and keep it running — with these six simple steps:

- STEP 1 START**
by replacing required major powertrain components*

- STEP 2 REVIEW**
results of machine evaluation with dealer

- STEP 3 SPECIFY**
any additional parts to replace

- STEP 4 SELECT**
ReLife warranty terms

- STEP 5 WORK**
is performed on your machine by certified John Deere dealer technicians

- STEP 6**
LET YOUR RELIFE MACHINE HELP
**MANAGE OWNING
AND OPERATING
COSTS**

*Major powertrain components vary by model. See your dealer for details.

Reman

Time running out on your machine?

Extend your machine's life with the John Deere Reman Reload Program! Time takes a toll on your machine's powertrain. With the John Deere Reman Reload program, you can extend the life of your machine while keeping your operating costs low. The program includes:

Reman Components

- ▶ John Deere Dealer installed – 12 months Parts & Labor
- ▶ Reman John Deere Dealer installed – 12 months Parts & Labor*
- ▶ Custom-tailored extended warranty packages at your request

*On selected parts. Some restrictions may apply. See dealer for complete details.

Rebuilt or Reman?

REMAN = Better Parts, Better Support, Real Fast.

Reman engines from Deere have better turnaround time, 100% Deere parts and are tested to OEM specifications.

Why Work For Papé?

At Papé Machinery Construction & Forestry, we're always searching for driven, dedicated, intelligent individuals to join our team. As a family business built on generations of hard work, we know how important it is to hire employees committed to excellent service. At every level of our company, from our administrative staff to our repair technicians, you'll find people who love their work and love going above and beyond for our customers. If that excites you, fill out an application today. We can't wait to meet you!

The Papé Group is an Equal Employment Opportunity (EEO) employer and welcomes all qualified applicants. Applicants will receive fair and impartial consideration without regard to race, sex, color, national origin, age, disability, veteran status, genetic data, religion or other legally protected status.

Benefits We Offer

- ▶ Retirement Plan & 401(k) Matching Program
- ▶ Health Insurance
- ▶ Dental Insurance
- ▶ Vision Insurance
- ▶ Prescription Insurance
- ▶ Flexible Spending Accounts (Flex Plans)
- ▶ Life Insurance
- ▶ Short- and Long-Term Disability Insurance
- ▶ Progressive Paid Holiday & Vacation Plans
- ▶ Online and Instructor-Led Training
- ▶ Professional Work Environment
- ▶ New and Rewarding Opportunities in our Growing Company

Our Technician Training Program

Papé Machinery Construction & Forestry is always on the lookout for Technicians who want to be part of a great team and have a commitment to long-term growth. Therefore, we have partnered with several Diesel and Automotive Technician programs to provide our Papé Technician Sponsorship program. If you are planning to attend a diesel technology or automotive technician program, we want to hear from you! Between the education you receive and the in-depth, hands-on, factory training we provide, you can be sure that you will be fully prepared for your career as a technician. Not to mention, our Technician Sponsorship program provides benefits like tuition reimbursement, incentives, tooling, safety gear, and more!
